

# ALSHOR PLUS ALUMINIUM SHORING SYSTEM

Alshor Plus offers a robust, lightweight aluminum shoring system equipped with built-in safety and productivity features. Its unique load release mechanism significantly speeds up dismantling, making it a faster choice.

Safety is enhanced with features like integrated ladders, platforms, and handrails. Efficient in design, it allows fewer legs to support more weight—up to 120kN per leg.

“Alshor Plus” is a registered Altrad RMD Kwikform trademark

# ALSHOR PLUS ALUMINIUM SHORING SYSTEM

Product Description	Heading
Leg Heights	1250   1500   2000   2500   3000   4000 mm
Leg Weights	5.9   7.3   9.8   12.3   14.7   19.6 kg
Frame Lengths	1200   1800   2400   3000 mm
Frame Weights	8.9   12.2   14.5   16.0 kg
Ledger Lengths	1200   1800   2400   3000 mm
Ledger Weights	4.9   6.7   8.5   10.1 kg

## Advantages

The innovative load release mechanism greatly speeds up the striking and dismantling process.

Includes integrated ladder access, platforms, board bearers, and comprehensive handrail systems.

With a leg loading capacity of up to 120kN per leg, fewer supports are needed, streamlining the setup.
