

MEGASHOR 1000 KN PROPS

Megashor Props are ultra high duty modular props designed to handle high loads.

Megashor Props come in a comprehensive range of sizes ranging from 15mm all the way up to 5400mm which enables them to be incredibly versatile especially when dealing with Heavy Duty Falsework, facade retention, tunnel formwork, bridge launching and excavation support.

Megashor Props can work alongside Superslim Soldiers seamlessly to provide restraint and added flexibility.
